ATCC No.

75281"

REMARKS:

This is to rectify an error in not incorporating the second ATCC deposited Microorganism into the original patent application. The reason the ATCC No. 75281 was not included in the application is that the ATCC did not provide the depository number to the depositor until August 7, 1992, when the viability test was completed on this strain. The ATCC strain No. 75280 was transmitted to the depositor via telephone,
